

Private Profile

Give your creators the opportunity to hide their content from unauthorized users to increase adoption rates.

Sensitive Content Warning

Add a warning popup about sensitive content of the website to comply with laws and regulations and help the underaged avoid posts that are not suitable for them. Feature is very useful for adult websites.

Block Post Creation for Members

Prevent members from posting content on your website. The feature is a must for the websites with adult content.

Creator's Agent

Add a new user role to delegate management of creators to their agents and let them earn money with your platform also.

Watermark

Protect content of your platform users from intruders with watermarking photos and videos.

Tipping in Posts

Give your creators the opportunity to earn more by receiving tips for their posts.

Welcome Message

Give your creators the opportunity to send a welcome message to their new followers and subscribers for better user engagement.

Hidden Profile Fields

Customise the looks of your users' profiles by hiding any fields that you deem unnecessary.

Multiple Attachments in Messages

Enable your users to add multiple attachments to messages. Add a cover to the file set.

Login as User

Login as a certain user, get full access to their page and see how the site looks from their perspective.

Payout Request Tool

Give your creators a convenient tool to send payout requests to the website admins.

Stripe Payment System

Integrate Stripe Payment System as alternative for other billing systems for the websites with a low entry percentage.

Sign up with Phone Number

Integrate [Twilio](#) to enable your users to login with their phone numbers.

Statements

Let your creators and talent representatives view full stats on their earnings for the whole time or for a certain period of 2 weeks. Also, get a better view of the statistics yourself.

Schedule Mass Message

Give your creators and their agents an ability to schedule Mass Messages and send them at the pick site visiting time to increase sales.

Paid Events

Enable your creators to hold paid events on the platform and sell tickets to such events in advance.

Mass Message Statistics

Let your creators and their agents analyze Mass Message Statistics and give their audience more interactive content.

Lists

Create lists with your followers. Send mass messages to created lists. Creators can make more personalised content for their audience and earn more.

Vault

Use already uploaded files many times. Add, delete, create folders from More Menu. It is a great tool for creators and their agents to manage platform workspace and interact with audience better.

Sale for Subscription

According to our statistics, 'Subscriptions' is one of the most profitable features for a creator. Creators can make sale for their subscription plans that will appear as a banner on the Profile page.

Purchased Files Storage

Storage with all purchased files for the member. The files are collected to the folders by creators and available when user is online.
